### Materials from natural products

ArtSilk	high quality viscose made from carefully processed cellulose (natural material)
Tencel	sustainably produced fiber made from natural cellulose. Tencel is a fiber from the LENZING Group, ecologically and medically tested, and has received the "European Award for the Environment".
BambooSilk	hand-spun viscose from the pulp of the bamboo plant
Natural Wool	hand-spun untreated New Zealand wool - combed and with long fibers. Natural Wool is available in many natural shades, depending on the color you want, it can contain up to a maximum of 20% viscose.
Mohair Mix	high quality wool blend of hand-spun mohair wool 20%, fine ghazni wool 20% and New Zealand wool 60%
Alpaka Wool	soft wool from the South American alpaca camel, especially good for allergy sufferers
Fabulous Silk	finest recycled Indian silk, which is spun into a new thread in a complex process
Pure Silk	Indian silk with a fine silky sheen
